

The Methodical Universe Revealing the Cosmic Code The Awakening!

By: Dr. Clarice R. Barrett, Msc. D.

Dr. Clarice is an Existential Researcher, analyzing man's purpose, for the past 35 years. She is also an Author of 16 e-books. Eight of which are a series on the ancient mysteries revealed. She carries two degrees, been a columnist for a Las Vegas, Metaphysical Magazine paper, and is a professional Astrologer and Numerologist, besides born as an Empath or Intuitive. She reveals that in her research she found that we live in a programmed methodical universe. This is revealed in the Holy Bible if you understand the Codes that are inserted. This was hidden on purpose until man's knowledge increased.

The Truth of the Ancient Mysteries The Lost Treasures of Ancient Forbidden Secrets, the Cosmic Code ... Revealed...

The long awaited Utopian Marriage between science and mysticism, bringing technology and the Esoteric wisdom as one. This is the full understanding of the Bible, being of Exoteric and Esoteric Teachings. Both of these teachings have remained apart even though they are from the same book, "The Holy Bible."(KJV) Now the whole amazing story can be told.

Clarice Explains:

Throughout history, man has been asking the Big Questions; Why? What is the meaning for life on this planet? And what is the truth? In order to answer this request intelligently, you must learn how the sciences and religions of today came into existence. While on this quest to reveal the knowledge and wisdom to you, I'll show that everything is connected, historically and scientifically. There is a tendency, for the first time of this age, in scientific circles to regard ancient documented texts and mythology as sources of information for history! And it has been my life's mission and destiny to bring the marriage of technology, (Esoteric knowledge), and mysticism together with Exoteric teachings. I feel I have done this in fact with all of my books, I put God and Christ back into the equation of life through science and knowledge (*Esoteric*), the *Akashic Records* or *The Book of Life*. Even though there have been slices of truth revealed already by others, the whole story has not been revealed as yet, and it is amazing and enlightening. This is due to the fact that half of the bible speaks in technology, *sacred geometry*, symbols, ages, astrology and numerology; this is the Esoteric Knowledge which has been ignored by Orthodox Religion. Organized Orthodox Religion is known as (*Exoteric*) knowledge, only to be understood by the people of the time, due to their non-education. Due to this, they missed more than half of the message that God is sending. Not to be revealed until this point in time, due to the approaching Age of Aquarius (the awakening) and the end of the Piscean Age. This knowledge would be revealed when education and technical knowledge was raised by the masses.

Daniel 12:4

"But you, Daniel, shut up the words, and seal the book until the time of the end; many shall run to and fro, and knowledge shall increase.

Daniel 12: 8-9-10

Although I heard, I did not understand. Then I said, "My Lord, what shall be the end of these things?" And He said, "Go your way, Daniel, for the words are closed up and sealed till the time of the end. "Many shall be purified, made white, and refined, but the wicked shall do wickedly; and none of the wicked shall understand, but the wise shall understand.

Genesis 1:14

"And God Created the Stars and the Heavens to be used as signs."

Job 38: 31-32

"Can you bind the cluster of the Pleiades or loose the belt of Orion? Can you bring out Mazzaroth (Greek word for Zodiac) in its season? Do you know the ordinances of the heavens? Can you set their dominion over the earth?

Dr. Clarice has revealed this in detail in three of her books even though all her books cover this topic in some way. Vol. 4 *Ancient Blueprint of Creation*, Vol. 5 *God's Story in the Constellations*, and Vol. 7 *The 7th Key*.

Once you take a journey through these fascinating books, your life will never be the same.

All of the Old Testament prophets were learned in astrology and numerology, from Moses, Isaiah, Daniel, King Solomon, Disciples, and Christ. The twelve tribes and apostles are all based on astrological symbolism. The Bible itself is an astrological textbook whose roots go back over 25,000 years, to the beginning of Ancient Hebrew, "Hasmonean."

Astrology and numerology, like many of its other esoteric cousins, is one of the great KEYS to unlocking the secrets of the bible and universe – which is why it has been so condemned or persecuted. Only the ruling classes were permitted its valuable secrets. The common masses had to be kept illiterate and ignorant in order to be controlled, including the fallen Angeles assigning different Gods, and animals to the planets through the Babylonian, Egyptian, Grecian and Roman Empires.

Even today, in our literate society, the most important secrets of astrology are being withheld from the general public – secrets like true meaning of the Ascendant and the Midheaven. The truths is, when you assign other gods and take the one and only God out of the equation is when it is misused.

It is amazing that the root of all knowledge was Hebrew, and only in the past 1900 years has it changed to many different religions. Even Christ's name has been changed to the term Jesus, a Greek translation 500 years ago. The Greek phrase *Lesou Christos, TheouLilos, Sotee* (in Latin lettering) means "Jesus Christ, (in English). It means in Greek fish. While Christ was here and teaching, and for 1500 years after his physical death, he was known as "Yahshua," this is Hebrew, and literally means Yahweh/God-saves and Master. Yes, God and Christ are REAL, but how insulting has it been to take his knowledge, pure electrical magnetic energy of technology, through physics and view how many different ways that it's been misused. Not only the knowledge; of Astrology and Numerology, but in every technical field of all knowledge has been misused.

I always tell everyone that ***I DO NOT PREDICT ANYTHING!*** I only know the astrological signatures of the planets and how they will affect your fate, your emotions and all the human and natural affairs. We all know that life is a constant process of change and "history repeats itself." These cycles do not affect just you but affect the weather and the news too. I have watched for many years and tested the astrological markers, and I know by experience when any drastic and dangerous "energies" will always return to plague humanity.

Some people often tell me, "But Dr. Clarice, I cannot leave my life this way. New Moon or Full Moon, I have business to take care of!" Well, I understand the dilemma, but to me it sounds like, "Dr. Clarice, the light is red, my car is stopped at the light, but I can't stand still any longer here because I am going to be late for my appointment." Go ahead! You see, you came and asked me for spiritual rules; I gave them to you, now you have to deal with them. You took the chance and were curious enough to "ask"; now that you receive the "discipline," it's pretty much up to you to heed them or not. The world is not necessarily ready, willing and unenlightened pertaining to this "lunar" code, you are! The idea is to plan well ahead of time and synchronize with the universal law to plan all your important endeavors. It is as simple as that. Since the dawn of time, the Creator has shown his truth to the humble, a truth that is hidden from the vain blinded by worldly pleasures, but which is written in the skies, which nightly speaks of the glory of God.

Astropsychology is not yet endorsed, understood, taught in our colleges and Universities. You have been given a chance to make a wise choice, while many of the 2004 deadly tsunami victims did not have that option. It is the knowledge of how to interpret the stars that can help us live our lives in the flow of energy that is protective and nourishing.

It is not that difficult to learn and can save much grief to be able to live in accordance to the Cosmic Code Universal laws. It saddens me that Astropsychology is not taken seriously, and that it is not taught to our children as a part of their regular curriculum in schools. Indeed, the whole world

operates in a blind state, unaware of the celestial forces or the will of God that affect us daily. It is my mission to further mankind's enlightenment using the knowledge of the stars.

All that I do is scientific; it's logical and based upon 35 years of my own research, careful observation and information. I have developed a system with my software that allows me to make fast and accurate observations. Using Astropsychology, it is possible to pinpoint the most likely times and dates, years ahead for personal use or to forecast natural events.

All of the signs of the Zodiac, the twelve houses, and the numerous astrological aspects are based upon God's higher order in the established, interstellar cycle. Their subtle meanings are derived from a particular place or function to each other, and all operate within the ordered cycle as a whole. Our lives unfold according to our specific cyclic pattern, interacting with the Universal cycle. Discerning the Universal Mind at work is difficult; those gifted at birth will naturally understand the cosmic mind, using their inborn, intuition and objective mental tools. However, when properly educated, anyone can learn to further his cosmic consciousness and realize his close relationship with God and the Universe. It often starts with a willingness to expand the consciousness, and the simple realization that what cannot be seen or touched doesn't mean it is non-existent. That's what makes a real scientist and a true intelligent person is respecting the essence of the word investigation! Sadly enough, the majority of these educated souls fears the ridicule and may also take the risk of experiencing abandonment by their peers or churches. Those methodical scholars will never be able to penetrate the spiritual domain of the stars in my research. Those scholastically oriented souls are plagued at birth with a limited view and conception of the unknown. Usually a weak planet Mercury (the mind), a phlegmatic Uranus (inquiry) in an unassuming earth sign (rationale) becomes the logical reason for the inability to reach a higher level of understanding. The mind resembles a nutshell that inherited a common astrological formation and deprives the soul to experience a highly cosmic reality. To them, the moon is nothing else than a dead satellite orbiting around the earth with no more purpose than to produce the daily tides.

"God made the stars for more than the sake of beauty; he gave them to us for interpretation so that we may live a safer and more productive life." As above so as below.
